

## *Digital Nomads*

Thanks to the on-line working possibilities, the numbers of „digital nomads” is increasing worldwide and in Hungary as well. Hungary is a beautiful country located in Middle-East Europe and is expecting you, even you want to work from the Lake of Balaton, from the Mountains of Vértes or Kékes or from the Capital of Budapest. Being a free-lancer, owner or an employer with an employee -from abroad but non-EU(EEC) you can apply for „White Card”, which is entitled you for working from/in Hungary for one a year and it can be extended one more year, if you wish. Owning the Hungarian „White Card” you have to earn at least 2.000 EUR in a month and submit a monthly report on it. The question is always where is taxable this income? If you are a hungarian national, this fact is the base of the Hungarian tax liabilities – even if you have to pay or not have to pay PIT in our country. Non-hungarian-nationals are liable to submit Personal Income Tax (PIT) returns relating to the earns which source is Hungary of.

Do you want to have Social Insurance in Hungary? I can even help you!

*With kind regards,*

Valeria 😊
