

„Blue Card”

The name of the deservedly popular "Blue Card" suggests that it entitles "blue-collar" workers to work in Hungary. However, this is not the case.

A citizen of a non-EU (EEC) countries can receive "EU Blue Card" if

- wants to work in a job requiring a high level of education and has the higher professional qualification or relevant high-level professional education necessary to perform this job, or
- has an EU Blue Card issued by an other member state of the European Union and has resided legally in the member state that issued the card for at least 12 months, or has resided in the second member state for 6 months.

The domestic EU Blue Card entitles its holder to stay in Hungary for no more than 4 years entitling the owners **to undertake work requiring a high level of education.**

With Kind Regards,

Valeria 😊
